# Adobe Creative Cloud

## All the tools you need to create, collaborate, and stay in sync.

Adobe Creative Cloud | Westside Community Schools

# Step 1: Download from Self Service

- To begin, locate *Self Service* from the applications folder and launch the application.

- Search for "Creative Cloud Installers". Click Install.

# Step 2: Launch Adobe Creative Cloud

- After installation, locate Adobe Creative Cloud in the applications folder. Double-click to open the folder and launch the application.
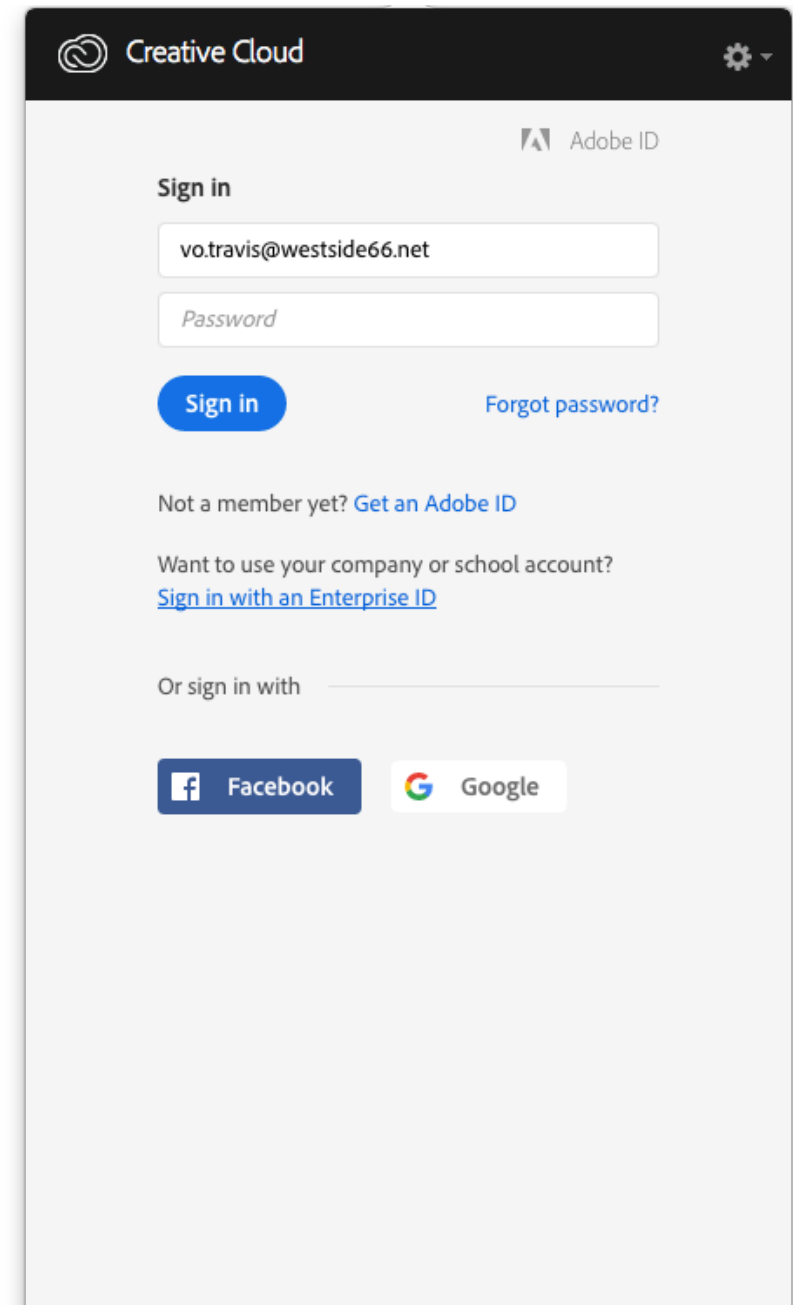

# Step 3: Sign In to Adobe Creative Cloud

- To sign in, click on *Sign In with an Enterprise ID* and use your district-provided email address and password. Then, follow the on-screen prompts to authenticate to the server.

  *Note: Access to the Adobe Creative Cloud is limited to students and certified staff only.*

# Success!

- If you see this screen, you have successfully installed and connected to the Adobe Creative Cloud — happy creating!

- You will need to install applications individually from the Adobe Creative Cloud. Updates may install after download.
